

# Challenges **2010** in Laparoscopy & Robotics

The European Congress  
of Laparoscopy 2010

Some of the most prominent Laparoscopic  
Urological Surgeons will perform innovative  
live surgery demonstrating the full spectrum  
of urological procedures.

June 10-11-12, 2010

It is a great pleasure to welcome you to Rome for the European Meeting on Laparoscopic and Robotic Urologic Surgery. "Challenges in Laparoscopy and Robotics" has reached the 7th edition and the concept that initiated this adventure is still quite alive and shows great potential for the future of Urology.

This meeting intends to bring together technological advances, education and communication in order to ameliorate knowledge of ongoing research and clinical activities.

The comprehensive scientific program will include live laparoscopic and robotic surgery performed by the world's most prominent urologic surgeons and a series of presentations of hot topics in our specialty.

In the past meetings, we have witnessed many challenging laparoscopic procedures. It is now time to expand our indications and to look forward to new challenges.

We are enthusiastically anticipating an extremely stimulating meeting. Live surgery, discussions and thought-provoking debates will take place with participation of the best urologists in the international arena. We are very proud to host this seventh International meeting in Rome, the perfect city for old antiquities and innovative techniques to convene.

We hope that the challenging procedures that you will see will lead the way towards defining the future of Urologic Surgery.
